

## Welcome

**307Bouldering** was conceived with the vision of strengthening the Wyoming climbing community, and having fun at the same time. Our goal originally, was to give all the outdoor climbers something to do during the extensive winters in the Rockies.

After a few seasons with the **Wyoming Bouldering Series**, we realized how much fun having one of the only state wide circuits in the country could be. The comps have doubled in size since the first year, with plenty of room for more climbers. Come join the fun and see what the series is all about. The Wyoming Bouldering Series is an organization fueled by the energy of the climbers, we pride our selves in the virtue of fun instead of competition. Surrounding states have been great in supporting the cause. With their support The W.B.S. has gained a 307 family. We look forward to seeing everyone this year at the comps. Cheers

**Please feel free to contact us for information on guiding in the Tetons, Devils Tower, Fremont Canyon, Wild Iris, etc.**
